T. M. Pfeiffer Esq.

Submit the following for Wednesday the 29 day of Sept, 1926. No witnesses were examined here today at Somerville and between 10 & 11 A.M, Underwood and sent for Reporter called Mrs Nettie, and also for another one called Major, they were warned by other reporters not to go to headquarters, Nettie said maby he wants to give me a drink, Underwood, sent word he wanted to have them interview a witness they had talked to sometime ago. he meaning Underwood had the reporters out looking for the colored witness they returned about 2.30 P.M. saying the information he (U Wood) gave them was not right. Can say have heard three Reporters that Prosecuting Simpson has nothing more than they had the first trial and census of opinion is their will be no convictions without Simpson has something he has not given out but they are sure he has not.

It appears they are tiring of Underwood's promises and also for his disappointment as stated in yesterdays report to you, I left Somerville at 3.10 PM and returned after our Phone, arriving at 4.40 PM and found that 3 or 4 of the Reporters had beat it away leaving others to cover them; nothing new and things at a stand still; will proceed to J. C. Thursday AM Lady.

Respt Submitted,
